- G# Dorian
- G Mixolydian
- A# Mixolydian
- A# Dorian
- C Mixolydian
- F# Mixolydian
- A# Aeolian
- G# Locrian
- A Locrian
- E Aeolian
- D# Locrian

• • •

This game is won by thinking in terms of Integration Theory:

• • •

1. Playing Phrygian cards activates the keys (columns).
2. Once a Phrygian card's note has been played, it can be played in its other 6 keys.
3. Win the game by playing all the cards!

• • •

– Play in Easy Mode to help you understand the game mechanics. Play in Hard Mode to put your Integration skills to the test!

• • •

When you win, you get a summary of your game:

• • •

The Keys: As you play Phrygian cards, a unique sequence of keys is made from left to right.

The Melody: The sequence of Phrygian notes.

The Harmony (Squared): The first non-Phrygian card played (face down) in each key.

• • •

Each game is played with a shuffled deck of 84 cards, so every time you win, the game 'writes' you a unique song using Integration Theory!

VISITORS

A rectangular widget with a thin black border containing visitor statistics. The text is centered and uses a clean, sans-serif font. The numbers are significantly larger than the labels. At the bottom left, the word 'LIVECOUNTER' is written in a smaller, blue, sans-serif font.
